

FAIRFAX COUNTY TO HAVE FAIR IF PLANS DO NOT GO ASTRAY

Citizens Launch Movement, and Committee Will Work Up Enthusiasm.

Fairfax County, Va., is to have a county fair for the first time in its history. The movement for an annual fair, to be held at the courthouse, was launched yesterday and today a committee of fifteen leading citizens is making arrangements for a public mass meeting at which the proposal will be discussed, and if possible the necessary financial arrangement made.

There is but little doubt in the minds of the committee, that the scheme will be put through. Yesterday was circus day, fair day, and a general holiday, all thrown into one in the county. Fairfax Courthouse and Willard's Hall held the center of the fair, and the fair was in the morning until long after dark. The fair project is a direct outgrowth of the general interest in the county and the people, the awarding of prizes to the winners in the boys' corn club, the meeting of the good roads, and other county organizations, the whole winding up with a big banquet by the women of the county in Willard Hall.

Montana Boy Wins.
Schuler Jellison, of Mt. Vernon district, seventeen years old, and a three-year resident of the county, having come from Montana, won the first corn club prize of \$100 in gold, for the best acre. He raised 80 and 90-bushels to the acre, for a net profit of \$78.15, and scored a mark of 90 per cent on his essay on corn raising.
Percy Marrow, of the same district, took the district prize of \$10 offered by James W. Roberts. He raised eight bushels to the acre for a profit of \$44.35 and made a mark of 78 per cent on his essay. Carl M. Bard, of Vienna, won the prize for the Providence district.
The Boys' Corn Club is under the direction of John W. Hunter, of Vienna, and all awards were made under the rules of the Department of Agriculture, which is sponsor for the clubs throughout the country. Prof. Benson, representing the Department of Agriculture, stated that some of the corn shown was far better than any he had seen at the State fair at Richmond.

Start Discussion.
Following the corn club meeting a general discussion of the county fair proposition was started. Judge Love, Colonel Lee, Franklin Williams, Jr., J. W. Roberts, M. E. Church, and Alexander Wedderburn making addresses.
The Good Roads Association met in the courthouse at 1:30 o'clock, and President Long and Secretary J. W. Berry were unanimously re-elected. A motion to have the county supervisors authorize a vote on the question of bonding the district to meet the expense of more than \$100,000 worth of macadam roads was successfully carried.
After the good roads meeting, business was suspended for the day and members of the association and invited guests to the number of 150, seated themselves at the banquet board.

Whist Tournament Opens In Oshkosh

OSHKOSH, Wis., Dec. 8.—Devotees of the game of whist gathered here from many points today to compete in the annual tournament of the Oshkosh Whist League. Play began in Armory B and will continue over to-morrow.

NOTABLES TO HEAR PRESIDENT TAFT ON WORLD-WIDE PEACE

Gathering Will Assemble Tonight At Pan-American Union Building.

A distinguished audience will greet President Taft tonight at the Pan-American Union building when he speaks in behalf of world-wide arbitration. Members of the Diplomatic Corps, officials of various rank, and women active in public affairs or prominent in society, will be on hand.
Besides the president those who will speak are: David J. Foster, formerly chairman of the House Committee on Foreign Affairs; Dean George W. Kirchway, of the Columbia University School of Law; Hon. S. Shimada, member of the Japanese parliament; Senator John Sharp Williams, and Congressman Barthold of Missouri, who is president of the Interparliamentary Group in Congress.
Senator Burton, of Ohio, head of the American Peace society, will preside. The American Peace society held a meeting at the Willard this morning to discuss proposed changes in the constitution. A luncheon for the directors was held for 2:30 o'clock.

Among the members of the directors who will be present are: Senator T. E. Burton, President; Congressman Richard Barthold, Congressman A. W. McCull, Jackson H. Ralston, Aldis H. Browne, George E. Roberts, director of the mint; George W. White, Dr. A. C. True of the Department of Agriculture; Judge H. F. Raymond, Massachusetts; George Foster Peabody, New York; Prof. S. T. Dutton, Columbia University, New York; Eugene Lowery, president of the National Bank of Commerce, Baltimore; Dean W. P. Rogers, Cincinnati Law School; Roy Goddard, Chicago; Frank S. Williams, Buffalo; Prof. W. J. Hall, Swarthmore; Thomas Raeburn White, Philadelphia; Stanley R. Yarnall, Cambridge; Arthur Samuels, Bushnell, Massachusetts; Arthur Deerin Call, Hartford, Conn.; James H. Van Schaie, superintendent of schools, Springfield, Mass.

Girl Has Miraculous Escape In Silk Mill

NORTH BERGEN, N. J., Dec. 8.—Josephine Badder, fourteen years old, of Jersey City, had a miraculous escape from death or serious injury in the silk mills of the Frank Pelt Manufacturing Co. this place.
She was working on a winding machine. Her hair was worn in a long braid, and as she stooped over to reach a part of the mechanism the braid, which was about fifteen inches long, became caught in one of the cogwheels. The braid was ripped from the scalp, and singularly enough the scalp was not torn. The braid and a patch of her hair about five inches square were torn off so quickly that the skin was little more than chafed.

Colorado Poultry Exhibit Is Opened

DENVER, Dec. 8.—The twelfth annual exhibition of the Colorado Poultry Farmers' Association opened in the Auditorium in this city today, to continue until next Wednesday. Nearly 2,000 fancy-bred chickens, turkeys, ducks, geese, pigeons, rabbits and other varieties of poultry and pet stock are included in the display.

ARIZONA TO VOTE AT FIRST ELECTION FOR STATE SLATE

Contest to Be Held Next Tuesday—Candidates in the Field.

PHOENIX, Ariz., Dec. 8.—Arizona will vote for the first time next Tuesday for a slate of State officials, two United States Senators, subject to formal ratification by the Legislature; representative in Congress, members of the supreme court, district judges, State senators and representatives, county and precinct officers.
In addition Arizona will vote on the proposed to eliminate the judicial recall from the State constitution. Unless the verdict on the latter issue is in the affirmative, all the other labor of the day will have been in vain, for Congress has decreed that Arizona shall remain outside the Union until this device is removed from the fundamental law.
There are three complete State tickets in the field—Democratic, Republican, and Socialist. The candidates for governor are: Democratic, George W. P. Hunt, of Globe; Republican, Edward W. Wells, of Prescott; Socialist, P. W. Gilentine, of Globe.
The Republicans are bending their energies to capture control of the Legislature, and thus insure the election of two Republicans as United States Senators. Their candidates for Senators are Ralph Cameron, who has been the territorial Delegate, and Hovai A. Smith, late Republican territorial chairman and a young mining man of Bisbee. The Socialists have endorsed E. Johnson and S. B. Simonton, both residents of Globe.
For Representative in Congress the candidates are: Democratic, Mulford Winsor of Yuma; Republican, John S. Williams, of Bisbee, and Socialist, John Halberg, of Jerome.
The multiplicity of candidates, it will probably be several days after the election before the results are known definitely.

Roads Must Supply Drinking Cups In Jersey

TRENTON, N. J., Dec. 8.—In a sweeping order issued today against twenty railroad companies in this State, the State Public Utility Commission decided that the railroad companies which do not provide drinking cups upon their trains fail to furnish adequate and proper service.
The board, therefore, orders the companies on and after January 1, 1913, to provide and keep on all passenger trains, operated by them respectively within the State of New Jersey, on which water is furnished for drinking purposes, inexpensive individual drinking cups or glasses in sanitary condition.
The order directs that these drinking facilities be provided for all passengers without cost to them.

To Call Mass Meeting On Education In South

The promotion of education among white boys and girls in the more remote districts of the South was discussed at the meeting of the board of trustees of the Church of Our Father, Universalist, last night.
A committee was appointed to arrange for a presentation of this topic to a mass meeting to be held some Sunday night, to be specified later.

AMERICANS HAVE ONE CHANCE YET TO WIN NOBEL AWARD

Foreigners Get All Prizes Except Peace, Which Is Undetermined.

STOCKHOLM, Dec. 8.—The Nobel prize awards for the present year probably will give little ground for self-complacency to Americans. Though the formal announcement of the awards will not be made until day after tomorrow, which will be the anniversary of the founder's death, the prospective recipients already are known, with the exception of the person or persons who will receive the prize for performing the most useful service of the year in promoting peace.
The prize for chemistry goes to Mme. Curie, chief professor of sciences in the University of Paris, who, with her husband, discovered radium. The prize for physics, which it was believed some time ago would be awarded to Thomas A. Edison, the American inventor, will go instead to Prof. Wilhelm Wien of Paderburg University. Maurice Maeterlinck, the well known Belgian author and playwright, will receive the prize for literature. The prize in medicine will be awarded to Prof. Alvar Gullstrand, of the faculty of medicine of Uppsala University, for research work in connection with his study of the eye.
In the eleven years of the Nobel foundation the prizes have been awarded to sixty individuals and to two peace societies. Only two of the sixty have been Americans. A prize in physics was awarded to A. A. Michelson of the University of Chicago, a German by birth, and one of the peace prizes went to President Roosevelt for his services in promoting peace between Russia and Japan.

Split In Ranks of Prohibition Party

CHICAGO, Dec. 8.—Just as there is a standard Republican party and a progressive Republican party so there is a standard Prohibition party and an insurgent wing, according to developments here today. The split came at the aftermath of the meeting here of the Prohibitionist national committee.
The progressive Prohibitionists are organized to defeat any plan of the regulars to name William Jennings Bryan, ex-Governor J. Frank Hanly of Indiana, or Representative R. P. Hobson for their Presidential nominee.

For Beautiful Hair and Lovely Skin

("Parisienne" in Woman's Journal).
"Long abundant and glossy hair is often the result of dry shampooing. Soap and water 'take the life out' and leave it brittle and colorless. For a dry shampoo mix four ounces of ether with four ounces of corn meal, or with four ounces of powdered rice. Sprinkle a tablespoonful on the head and brush it out and the scalp and hair will be clean, soft, and lustrous."
"To have a clear, velvet complexion, massage the face, neck and arms daily with a solution made by dissolving an original package of medicated in eight ounces of witch hazel. It makes the skin lovely and soft."
"For chaps, cold sores, pimples, and skin diseases there is nothing better than Mother's Salve. It heals cuts, burns, scalds, and sores, and is a wonderful cure for coughs, colds, and catarrhs."

ITALIAN PAINTINGS WILL BE THEME OF FINE ARTS LECTURE

Prof. Mather of Princeton to Address Washington Society At Library.

The second lecture of the series arranged by the Washington Society of Fine Arts, will be given this evening at the Public Library. Prof. Frank Mather, Jr., of Princeton, will conclude his survey of Italian paintings from the time of Michael Angelo to the present.
Because of the big crowd that was turned away on November 10, because the hall only seats 300, other arrangements had to be made by Librarian George Bowerman. Tickets were issued only to persons who register up to the number seated in the hall. These seats will be held until the time for the lecture and if they are not then occupied, they will be thrown open to late comers.
During the winter, lectures have been arranged on French, Spanish and Dutch painting. Miss Anna Benson Schmidt will talk January 3, on "French Painting."

Admiral Chester to Lecture on Turkey

Kinematograph views of scenes in the Orient will be used by Admiral Chester this afternoon and evening at his lecture on Turkey and the advance of good government by the young Turk party before the National Geographic Society in Masonic Temple.
Admiral Chester has spent years cruising in the Orient, and was in command of the United States naval force in Turkish waters at the time of the overthrow of Abdul Hamid.

Butter sizzles at 250°
Lard at 400°

You can heat Crisco to 450°
and it will not smoke

No smoking — no burning

All cook books say that to fry in lard, you must get it "smoking hot."
At 400 degrees, lard begins to smoke and burn. To fry with it, you often have to fill your kitchen with smoke, and the burnt lard makes black specks on the food.
You can heat Crisco very much hotter than lard and it will not burn or smoke.
You can heat it so hot that it fries foods in half the time required with lard and no distasteful "frying odor" permeates your dining room and kitchen.
Crisco fried foods never have burnt black specks because Crisco does not burn. You will find they are the most appetizing looking fried foods you have ever seen.
In frying with lard you have noticed how you have to keep adding more. With Crisco, you never have to do this. This shows how economical Crisco is.
